Parkland School Division

Accountability Pillar Results Report for 2018-2019

November 1, 2019

WHERE THE WORLD OPENS UP

The Accountability Pillar surveys are administered annually and throughout the province, during the months of January to March to:

- Students in Grades 4, 7 and 10;
- Students in Grades 4 through 9 (in small schools);
- Parents of students in Grades 4, 7 and 10; and
- Teachers.

Students and teachers complete the surveys online at school while parents receive a copy of the survey that can be completed online, or by mail. Parent surveys are returned directly to Alberta Education.

Responses are collected and tabulated into a summary chart released in May and are updated in October to supplement updated academic achievement results through the Provincial Achievement Tests (grade 6 and 9) and the Diploma Examination results (Divisional and First Nations, Métis and Inuit specific). These achievement reports are provided in a separate summary report on our school's website.

This Accountability Pillar Results Report includes our school's overall summary and new results for all survey measures.

Approximate Survey Responses:

- 6 parents in our school responded to the survey. This is up from 3 last year. Unfortunately, low survey responses may not accurately represent our parent population.
- In Parkland School Division, approximately 459 parents responded to the survey. The five-year average for parent responses is approximately 406.
- In Parkland School Division: 2,560 Students (960 in grades 4-6, 700 in 7-9 and 900 in 10-12) responded; this included 28 students who responded from our school.
- In Parkland School Division, 457 teachers responded; this included 11 teachers from our school.

These are approximate numbers as not every respondent answers every question.

Highlights and Celebrations

Connections for Learning continues to celebrate the strong work of staff, students and our overall community.

- The percentage of teachers, parents and students satisfied with the overall quality of basic education is 97.7% which is an improvement from last year and above the Alberta average.
- The percentage of teachers, parents and students who are satisfied that students model the characteristics of active citizenship is 90.8% which is an improvement over last year an indication of the importance of this measure as part of our programming.

- The percentage of teacher, parent and student agreement that programs for children at-risk are easy to access and timely is at 91.1% which is a significant improvement over last year.

Parkland School Division's Ultimate Goal is Student Success and Well-Being. To this end, the Board's current Education Plan targets nine assurance elements in student growth, teaching and leading and learning supports.

There are still some areas for growth within our Accountability Pillar Survey results. Connections for Learning is committed to improvement and continuing to learn and grow with our community. For our action items related to this report, please visit our school's Education Plan section of our website.

Areas Requiring Strategic Planning

- The percentage of teachers, parents and students satisfied with the opportunity for students to receive a broad program of studies including fine arts, career, technology, and health and physical education increased over last year but is lower than the provincial standard. We look to improve this measure by offering greater community partnerships to support healthy learning communities.
