

SG Outreach Move to Broxton - December Update

Dear Parents/Guardians,

Our Spruce Grove Outreach campus will finally be on the move as our days at the Matthew's Avenue location are down to the last week. We can hardly wait for this official new chapter to begin. This move represents a fresh start and a chance to enjoy an enhanced learning environment together. The modular classrooms are in place and exciting progress is being made by the PSD Facilities crews and contractors as they prepare the link that connects those new learning spaces to the existing school.

Please note, to facilitate a smooth transition to École Broxton Park School, we will make slight modifications to our school calendar. **Our current Spruce Grove campus will be closed to the public on Wednesday, December 20, 2023, and Thursday, December 21, 2023.** This brief pause will allow us to set up our new space and ensure everything is ready for our students to learn.

The new campus will officially open its doors on Monday, January 8, 2024. This day will mark the beginning of an exciting new chapter for our community, and we are eager to welcome you there.

Important Dates

- The last day to exchange modules will be **Tuesday, December 19, 2023 until 7:30pm.** Make sure to have all your necessary materials before the move.
- For those enrolled in **30 level diploma courses**, the final module is due on our first day at the new location, **Monday January 8th 2024.**
- Additionally, please prepare for final exams scheduled between Monday, January 15, and Friday, January 19, 2024.

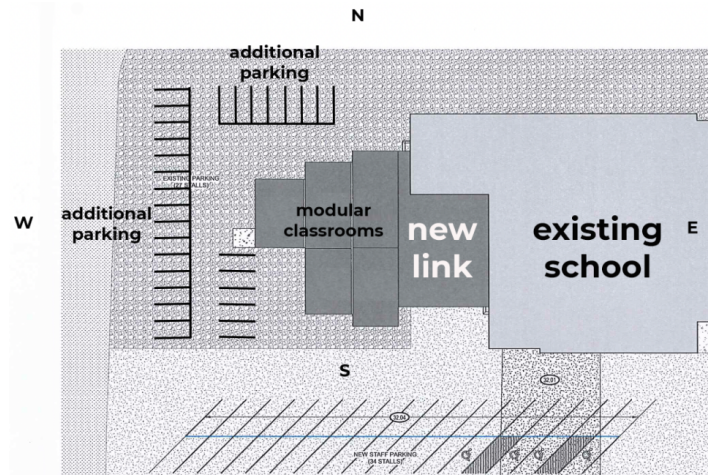

We understand that change can bring a mix of emotions, but we assure you that our commitment to providing a supportive and dynamic learning environment remains unwavering. The new campus has been chosen with the needs and aspirations of our students and families in mind, and we can't wait to embark on this new journey with you.

Parking

Since our Virtual Learning staff and Parkland Student Athlete Academy cohort has already been at the new location since the beginning of the school year, staff and families have had time to adjust to the new bus lanes as well as parking and pick-up/drop-off routines.

Please note, parking is limited. However, once construction fences have been removed, **additional parking for CFL Outreach staff and students will be available north of the modular classrooms.**

Stay tuned for more details about our new location and the exciting opportunities it will offer. Your support and understanding during this transition period are greatly appreciated.

Let's embrace this change together with enthusiasm and anticipation for all the wonderful experiences awaiting us at our new campus!
